1924 CATALOGUE

Northern Seed & Nursery Co.

Ipswich, South Dakota

NOTIFY IF NOT DELIVERED
RETURN POSTAGE GUARANTEED

Hear Ye!

We're optimists still, even if the past few years have not been the best, we are looking forward to the rosier times.

Faith is what we need installed into our being to bring about more perfect conditions. There never has been any wavering on my part in believing that the great Northwest will blossom like the rose and those living on the prairie and towns be cemented with good fellowship and all enjoying the fruits of prosperity.

This prosperity will come if we do our part in building for permanency, and raising good live stock, planting good seeds and hardy nursery stock will hasten the day. Prosperity cannot stand without contentment and contentment cannot come unless we surround ourselves with the blessings of nature and plant plenty of trees, fruits, shrubs and beautiful flowers.

It has only been a few years ago that many tried to discourage me from setting out an orchard but I had faith and if you will visit my place in the fall you will be elated to find the great number of varieties of apples and plums loading the trees to a breaking point. We not only have all we want for our own use but sell a great quantity every year.

Anyone can have the same success if you will buy from us the varieties we recommend and cultivate your plantings. I have emphasized cultivation every year I write up the catalogue. Weeds and grass have no place where trees, shrubs and flowers are grown. You never would think of planting your garden on the sod, without first plowing deep and cultivating well and if you follow the same course with your nursery planting you simply cannot help but have success.

Remember also in buying direct you get nearly twice as much as you do when you buy through an agent and have your order packed individually instead of being grouped with all the orders he takes, when in unpacking, the tender roots are exposed to the sun and wind.

In selecting Farm Seeds, we use the greatest of care. We raise many varieties ourselves and what we sell are acclimated.

Seed corn is given our special attention. All varieties are grown in different fields and away from any other varieties to keep them pure and true to name. This year we have hand picked the best corn we ever raised and housed it before hard frosts and bad weather. No outdoor or outside cribs are used by us.

We take pride in having probably the most up-to-date cleaning plant in the northwest. **Good Seeds Cleaned Well** is our slogan.

We are selling our seeds and nursery stock on the Golden Rule plan and if when the order is received you are not satisfied with it, send it back and your money will be refunded. Isn't that fair?

Yours to serve,

J. B. Taylor, Pres.

APPLES

Maybe it is hard to believe us but we find that apple trees are first rate drought resisters and that many varieties will bear faithfully year after year.

Then consider the ornamental feature, the blossoms alone will repay you for the room the trees occupy.

Cultivate around your apple trees as well as any other planting you make. Keep in mind the planting of corn. Where corn will grow well you can expect apple trees to. You never expect to even mature a stock of corn if planted in the sod, so don't expect a tree to perform a miracle if planted like a fence post.

We have an extra fine lot of transplanted apple trees this year with fine roots and which will please you immensely.

We are pricing the hardy dependable varieties only at a very low figure.

ANISISM—Trees grow upright and bear profusely, hardy and free from blight. Fruit medium size, dark red and of good quality.

CHARLAMOFF—Hardy, thrifty, early and regular grower. Green splashed with red, hangs on tree well. A choice dessert apple.

DUCHESS—A favorite early apple. A good bearer of large green apples, striped with red, fine pie apple.

HIBERNAL—The hardiest of all apples. The best for top working. Bears large green apples and the best of all pie apples.

OKABENA—Originated in Minn. Quite-similar to Duchess.

PATTEN'S GREENING—A vigorous and thrifty grower and a good bearer of green apples that later turn yellow. Good keeper.

WEALTHY—The best of the large apples for eating. Fruit red and a good keeper. Originated in Minnesota.

YELLOW TRANSPARENT—Hardy grower of the earliest of the summer apples. A fine eating as well as cooking apple.

Price for all apples 3 to 5 feet 50c each, per 10, \$4.00.

We have some of the finest Duchess, Hiberna, Patten's Greening and Wealthy we ever had in 5 to 7 feet that will commence to bear shortly after setting out. These trees are the ones that agents charge \$2.00 each for. We will sell them for \$1.00 each and \$7.50 per 10 while they last and if you wish to save a few years time, order early.

Crab Apples

FARIBAULT—One of the very best of the crabs. Trees a spreading and thrifty grower. Fruit yellow, splashed with red. We have grown this variety for years and we never failed to have a crop every year.

FLORENCE—A hardy, spreading tree, bearing very young and very heavy. Fruit medium size, carmine colored. Flesh yellowish, excellent for cooking.

MINNESOTA—Fruit medium in size, greenish yellow splashed over with reddish stripes. Flavor—mild and sweet.

RED SIBERIAN—Hardy and fine for jelly.

TRANSCENDENT—Originated in Russia. A good bearer of firm and juicy fruit. Very popular.

WHITNEY No. 20—An upright, hardy and healthy grower. Fruit rather large, color nearly red when ripe. Becomes mellow if left too long on the tree. One of the very best eating apples we grow.

YELLOW SIBERIAN—Heavy bearer. Good for canning and jelly.

Price for Crabs 3 to 5 feet 50c; per 10, \$4.00

PLUMS

Tame And Wild Plums

South Dakota is a natural plum state and plums are so easy to raise and the fruit is so well liked that it is surprising that not more are raised. Failure with sturdy well grown trees that we are selling is very unlikely. If planted in groups or near one another, they seem to pollinate better. Plum trees start to bear generally the first year after setting them out. Our trees are budded and grafted on native plum stock and you will find them perfectly hardy.

Plant in cultivated land or where you can irrigate. Keep all sprouts hoed out.

DE SOTO—The standard hardy plum. Fruit medium. Color red when ripe. Flesh yellow and firm. An excellent variety for home use. Liable to overbear, in which case the fruit should be thinned out.

SURPRISE—One of the finest American plums juicy and sweet. Good keeper

TERRY—One of the largest of American plums. Fruit bright red, flesh firm, ripens in September. We do not think it is quite as hardy as the others listed.

WOLF—A very hardy and desirable plum. Fruit about the same size as De Soto, having a small pit. Has pleasant acid flavor.

WYANT—A thrifty grower making a fine tree for the orchard. Is a heavy bearer of good sized fruit. Color yellow and red. Ripens before the De Soto.

Price 3 to 5 feet transplanted .65c each; per 10, \$6.00.

Here is our youngest daughter beside one of the good Hansen Plums. This photo was taken a few years ago and we little thought at that time that just in a few years she would be old enough to have a beau. But time rolls on and just makes one realize that if one don't commence planting trees they cannot have fruit or enjoy cooling shade and the lovely things that nature gives us for just a little effort.

Hansen's Hybrid Plums

HANSKA—Thrifty grower, apricot flavor, fruit large, color bright red, fine for canning.

OPATA—Very prolific, bears early in life, color of fruit dark purple with small pit, pleasant tasting. Our first choice.

SAPA—Prolific bearer of dark purplish medium size plums, extra fine for canning. Probably not quite as hardy as the above.

Price 3 to 5 feet transplanted .65c; per 10, \$6.00.

WANETA—Prof. Hansen's latest and best plum. As large as the California plum and better tasting. Color of fruit red.

Price 3 to 5 feet transplanted .75c each; per 10, \$7.00.

Compass Cherry

This is one of the most reliable and best bearer of any of the plums. Fruits first year after setting out. Makes the most excellent jelly and preserves. No planting is complete without Compass Cherry.

Price 3 to 4 feet transplanted .65c; per 10, \$6.00

NUTS

HAZELNUT—A native shrub from Minnesota. Hardy but seems to thrive better if planted where it will have some little protection. ----- 50c

BLACK WALNUT—Grows to be a beautiful shaped tree and bears well after the tree gets to growing good. We have had trees bearing for quite a few years. Small transplanted trees each ----- 25c

SMALL FRUIT

Don't hesitate to plant plenty of the following list of dependable small fruits. Nothing better for jellies, jams and preserves.

All small fruit is composed mostly of water, so do not forget to give the plants a chance, not only to live, but to store up enough extra vitality to produce a crop worth while.

Currants

RED DUTCH—An old standard and productive grower. Planted more extensively than any other variety. Medium size red berry.

WHITE GRAPE—Standard white, very mild flavor.

VICTORIA—A vigorous grower, red in color, medium size, and excellent variety.

WHITE DUTCH—Similar to Red Dutch in growth. Color of berry white, having a mild sweet flavor. One of the best for jelly, as it takes less sugar and makes a very pleasing colored jelly.

Price on above currants 25c each; per 10, \$2.00

PERFECTION—One of the new varieties, and is a wonderful bearer of large juicy and mild acid red berries. One of the very best grown.

Price each 35c; per 10, \$3.00

Carrie Gooseberry

HOUGHTON—The old standard, prolific hardy, reliable.

Price each 25c; per 10, \$2.00

CARRIE—The best of all. A vigorous grower of good sized berries. Very prolific. Color green, turning to light red when ripe.

Price each 35c; per 10, \$3.00

Red Raspberries

We grow only the Prof. Hansen's new varieties: as these are the only ones that will withstand our climatic conditions. While it is not absolutely necessary, a light covering during winter, or planted where the snow will bank up around them, will give one more berries.

SUNBEAM—Is the hardiest and a very prolific bearer.

Price per 10, 75c; per 50, \$2.50

OHTA—Hansen's improved, fruit larger than Sunbeam.

Price per 10, \$1.00; per 50, 3.00.

Strawberries

Strawberry plants must be set out in well subdued soil and must be well cultivated, and if the season is dry, irrigate as the fruit is mostly water and must have that element to mature their fruit to perfection. After the ground is frozen in the fall the plants must be covered lightly with some coarse litter and gradually raked off in the spring time.

SEN DUNLAP—Finest summer variety, large and juicy.

Price per 50, 75c; per 100, \$1.25—Prepaid.

PROGRESSIVE—Standard reliable everbearing, true to name. Have strawberries and cream and shortcake all summer long.

Price per 50 \$1.25; per 100 \$2.25 prepaid.

Juneberries

SUCCESS—We are the only nursery in the west that is offering this improved Juneberry. Never fails to fruit, very hardy and dependable. Fruit large, juicy and less seedy than the native.

Price each 35c; per 10, \$3.00.

NATIVE—Each 20c; per 10, \$1.50.

Grapes

Grapes to do the best, except the native, should have some winter protection, and be covered lightly with litter or snow or laid down and covered lightly with earth. Our experience has been that where they have some protection, they bear much heavier.

BETA—Cross between tame and wild, hardy, prolific, fine for cooking and jelly. Color similar to Concord.

ALPHA—Originated in Minnesota. Hardy and prolific, extra fine. Color blue black.

NATIVE—This is the wild grape.

Price on all grapes each 25c; per 10, \$2.00.

NATIVE FRUITS

We are strong for boosting what is found native in the West. These are not only absolutely hardy but healthy. Will stand neglect but respond readily to kindly treatment. Then all are high class ornamentals. Include some or all of this list with your order to protect your other fruit and gives a variety for jellies and canning.

BUFFALO BERRY—Price each 25c; per 10, \$2.00

BLACK CURRANT—Price each 25c; per 10, \$2.00

CHOKE CHERRY—3 to 4 feet 25c; per 10, \$2.00;
4 to 5 feet 35c; per 10, \$3.00

SAND CHERRY—Price each 25c; per 10, \$2.00

WILD BLACK CHERRY—Each 35c; per 10, \$3.00

WILD OR NATIVE PLUMS—Each 25c; per 10, \$2.00

We do not want you to liken us to the average tree agent as when you sign on the dotted line with an agent you have no comeback as it binds you to pay and accept the order whether you are satisfied or not. How different with us. If you are not satisfied with the shipment you get from us, send it back and your money will be refunded or adjusted to your satisfaction.

“Everything came in the finest of shape. The geraniums were the finest I ever raised and blossomed all summer long.

Shade and Ornamental Trees

We propagate our own trees, taking particular pains to know for a certainty that the parentage is of northern acclimated stock.

We do not compete in price with the southern and eastern nurserymen. We cannot do it, because it takes us a third to twice as long to grow our stock as our nursery is located on the high prairie land, but when we send our products out we know for a certainty they will stand up better, being grown under similar conditions where the tree will be transplanted to. All of our stock will be shipped the same day as dug, and which insures better success than if the stock was dug last fall and cellared like most nurseries handle their goods. Our trees will come to you in the pink of condition.

The following prices are for transplanted trees. This means an extra developed root system which means so much to the life and after development of the tree.

A tree with a poor root system may set the tree back years and the chances if it lives, it will be dwarfed for life.

AMERICAN ELM—Without question the Elm is the best ornamental tree we grow for street purposes and for around buildings. Absolutely hardy and dependable. The graceful Elm gives a finished appearance to any home. We have an extra fine lot of all sizes that cannot be duplicated and that will please the most exacting.

	Each	Per 10
4 to 5 feet	30c	\$2.50
5 to 6 feet	40c	\$3.50
6 to 8 feet	60c	\$5.00
8 to 10 feet	85c	\$7.00
10 to 12 feet	\$1.00	\$8.50

ASH—Native and extra hardy and a great drought resister. Will respond to kindly treatment and make a good sized tree if cultivated and watered well.

	Each	Per 10
3 to 4 feet	15c	\$1.00
4 to 5 feet	25c	\$2.00
5 to 6 feet	35c	\$3.00
6 to 8 feet	50c	\$4.00
8 to 10 feet	75c	\$6.00

BOX ELDER—One of the standbys, makes the densest of all shade trees, does well in alkali and gumbo soils.

4 to 6 feet	35c	\$3.00
-------------	-----	--------

COTTONWOOD—This native tree we consider the best for windbreak purposes. Absolutely hardy, fast grower, sometimes growing 6 feet in a single season. A good background and alley tree, in fact is good anyplace. A tree that is associated with nearly all the early history incidents of our state and it deserves more kindly treatment than it sometimes receives. We have an extra fine lot this year.

	Each	Per 10
4 to 5 feet	20c	\$1.75
5 to 6 feet	30c	\$2.50
6 to 8 feet	40c	\$3.50
8 to 10 feet	50c	\$4.00

MALE COTTONWOODS—Selected from a native tree and does not have the cottony seeds that some object to.

3 to 4 feet	35c
4 to 5 feet	50c
5 to 6 feet	75c

LAUREL LEAFED WILLOW—For specimen purposes we believe this is the finest of all the willow family. The dark shiny leaves and vivid green bark are very attractive. Is not subject to worm pests.

	Each	Per 10
4 to 5 feet	35c	\$3.00
5 to 7 feet	50c	\$4.00

NORWAY POPULAR—Called the sudden log tree on account of growing so fast. Is not considered a long lived tree.

	Each	Per 10
3 to 4 feet	20c	\$1.50
4 to 6 feet	30c	\$2.50
6 to 8 feet	40c	\$3.50
8 to 10 feet	65c	\$5.00

NORTHWEST POPULAR—This is a native popular and presumed to be a cross between the native Cottonwood and the Balm of Gilead. Tree is a rapid grower, hardy and dependable. Our trees are extra fine ones.

3 to 4 feet	25c	\$2.00
-------------	-----	--------

SILVER LEAFED POPULAR—Fine for landscape and ornamental purposes.

	Each	Per 10
3 to 4 feet	25c	\$2.00

RUSSIAN OLIVE—Fine for landscape purpose. Will withstand droughty condition. Blossoms have a very sweet scent and stony fruit readily eaten by birds during winter.

3 to 4 feet	25c	\$2.00
-------------	-----	--------

RUSSIAN GOLDEN WILLOW—The light green leaves with the golden bark fits in fine for variety. Absolutely hardy.

4 to 5 feet	25c	\$2.00
-------------	-----	--------

NIOBE WEeping WILLOW—This is the only hardy weeping willow. With its long pendulant and drooping limbs makes one of the most beautiful of all specimen trees. All willows do best in moist places. Plant a Niobe where you throw your wash water.

3 to 4 feet	35c
4 to 5 feet	50c
6 to 8 feet	75c

WILD BLACK CHERRY—Native, ornamental as well as useful. Small black cherries good for jelly and the birds.

	Each	Per 10
2 to 3 feet	25c	
6 to 8 feet	75c	

Small Trees

ASH—
BOX ELDER—
COTTONWOOD—
ELM—

12 to 18 inch per 100 \$1.50

Willow Cuttings

Diamond Willow, Golden and Laurel Willow	-----
	per 100 .75
URAL WILLOW	per 100 \$1.00

HEDGES

There is no planting that so emphasizes distinction as a nice, well kept hedge. For landscaping it is effective, and is useful for dividing lines, screens, shutting off an undesirable view, and lends an air of seclusion.

Set plants from 12 to 18 inches apart in the row. When plants are set, cut back to about three inches of the ground. The following year trim back to about six inches, and the third year to within nine inches and one foot. This will give the base a chance to thicken up, which is necessary to make a compact, good appearing hedge. Many make the mistake of waiting too long before trimming back.

	Per 100
CARAGANA —Or Siberian Pea Tree -----	\$5.00
FLOWERING CURRANT —Native. Ornamental as well as useful -----	10.00
BUCKTHORN —We believe this is by far the best of all hedges. Beautiful colored leaves that cling late in the fall. Trims up easier and does not get as coarse. Hardy and dependable. -----	7.50
RUSSIAN OLIVE — Hardy and good drought resister. -----	3.50
URAL WILLOW —From Siberia. Makes a very graceful hedge. Also a good basket willow. -----	7.50

VINES

AMERICAN IVY—Hardest, most reliable of all climbers. A rapid grower. Strong transplanted plants. Each 35c; Per 5, \$1.25.

CLEMATIS PANICULATA—Similar if not the same as the native Clematis. A good grower, having a small white flower and later turning to a white cottony seed. Strong transplanted plants. Each 35c; Per 5, \$1.50.

SCARLET TRUMPET HONEYSUCKLE—Best for covering low screens, etc. It is one of the most cheerful blossomers of scarlet flowers and is very desirable for bouquets and decorating. Extra strong transplanted plants. Each 35c; Per 5, \$1.50.

WILD GRAPE—Native; makes a good climber for screens, etc. Price each, 25c; Per 5, \$1.00

BITTERSWEET—Native and an extra fine climber. Fruit ornamental. Price each, 35c; Per 5, \$1.50.

EVERGREENS

There is not a tree as useful as the evergreen. When fully grown it is a protection in summer against hot winds and in winter from icy blasts, a comfortable tree for man and beast.

Our prices are for transplanted stock and which are shipped with dirt around the roots. Our past experience has not been the rosiest as when we shipped with roots packed in moss it allowed too much exposure to the wind and sun which an evergreen root cannot stand for a minute. When received see that it is planted without any delay and have a tree that you can enjoy the year around.

BLACK HILLS SPRUCE—Very desirable for ornamental and cemetery purposes and we think the best of the spruces for us to plant.

All Evergreens Bailed and Burlapped.

	Each	Per 10
12 inch	60c	\$5.50
18 inch	85c	\$7.50
2 feet	\$1.25	\$10.00

COLORADO BLUE SPRUCE—For lawn specimen this spruce stands foremost.

12 inch	\$1.00
18 inch	1.50

COLORADO BLUE SPRUCE (Select)—These are the silvery leaved spruces, called shiners and the most beautiful of all specimen evergreens.

12 inch	\$1.50
---------	--------

BLACK HILLS PINE—Best of all the pines.

18 inch	75c	\$6.00
2 to 3 feet	\$1.00	\$8.00

JACK PINE—Hardy and good for windbreak.

12 inch	35c	\$3.00
18 inch	50c	\$4.00
2 to 3 feet	75c	\$6.00

RED CEDAR—Best of all drought resisters

2 feet each	75c
-------------	-----

It is not how cheap but how good that counts. When a firm will give you the privilege of returning your order if not satisfied and your money refunded, you can expect to get your money's worth.

Ornamental and Flowering Shrubs

Here you will find listed only the hardiest of all the ornamentals. For banking around foundation and for landscape effect the ornamentals must be used.

Be very liberal in planting from this list. The first year's satisfaction in having these associates with you, just make life worth living. Don't lose the best part of your life by not making a liberal planting of our hardy ornamental shrubs.

- ALPINE CURRANT**—A graceful growing ornamental currant ----- 40c
- AMERICAN ELDER**—Green showy leaves with white flower ----- 25c
- AM. WAHOO OR STRAWBERRY TREE**—Native, hardy leaves very showy with brilliant colored berries that hang on the tree all winter, very desirable ----- 35c
- AMUR MAPLE**—A small or semi-dwarf tree from Siberia. Colors up beautifully in the fall, a good ornamental. ----- 35c
- BARBERRY THUNBERGI OR JAPANESE BARBERRY**—Loaded with red berries in fall is very effective. ----- 35c
- BLACK HILLS BLOOMING WILLOW**—A new dwarf willow, very showy, silvery foliage, flowers yellow, blossoms all summer long ----- 50c
- BLACK HILLS BIRCH**—Coming from the Black Hills we think will be hardier than the other white birches, but like all birches will do better if planted in a partially shaded place ----- 50c
- BUFFALO BERRY**—A native strong grower --25c
- BUCKTHORN**—Extra reliable ornamental as it can be pruned or trimmed to most any shape desired. ----- 35c
- CARAGANA OR SIBERIAN PEA TREE**—Bark and leaves very attractive with yellow pea shaped blossom in early summer, large size ----- 35c
- CHOKE CHERRY**—Desirable showy, strong growing native, no blossoms more sweetly scented 35c
- DOGWOOD**—Siberian strain, red showy bark with white flowers, very desirable for landscape work ----- 40c
- FLOWERING ALMOND**—
Flowers are pink and like little double roses, very little double roses, very popular ----- 75c
- GOLDEN ELDER**—Golden leaves with white flowers ----- 50c
- Both elders will sometimes freeze to the ground but make a luxurious growth every season.
- HIGH BUSH CRANBERRY**—A very desirable ornamental, quite similar to snowball in blossoms, fruits fine for jelly. ----- 50c
- HONEYSUCKLE-TARTARIAN**—Is one of the most dependable and best ornamentals grown, the sweet scented blossoms remembered long after they fall. Light orange colored berries in late summer and early fall make it one of the outstanding of the ornamentals. Comes in three colors, red white and pink. Fine bushy plants, not little yearling slips. Absolutely hardy everywhere. ----- 50c
- JASAMINE**—A shrubby semi-climber, extremely hardy, purplish blossoms. ----- 25c

- JUNEBERRY**—Native, blossoms white, the fruit of the Buffalo Berry, Choke Cherry and Juneberry are good for jelly. ----- 35c
- MAY DAY TREE**—A bird cherry from Siberia. Very ornamental. First to leaf out in the spring, blossoms white, fruit quite similar to choke cherry. ----- 75c
- MANITOBA HAZELNUT**—Ornamental and useful shrub that Prof. Hansen has been breeding up from the wild hazelnut of Manitoba. ----- 75c
- PYRUS BACCATA OR WILD APPLE**—An upright profuse blossomer with miniature apples in the early fall. ----- 50c
- PRUNUS TRILOBA OR FLOWERING PLUM**—A very popular ornamental with double rose flowers that blossom early in the season. ----- 75c
- SIBERIAN ALMOND**—Prof. Hansen's find, earliest to blossom, color rose pink and fragrant. ---- 50c
- SUMAC**—Leaves fern like turns to crimson in the fall. Very desirable to plant with other ornamentals. Stands trimming and can be kept at any desired height.
- SNOWBALL**—An old favorite, no planting is complete without this standby. ----- 50c

Spirea Van Houttei

- SPIREA VAN HOUTTEI OR BRIDALWREATH**—The old favorite hardy white. Very desirable 35c
- SPIREA BILLARDI**—With pink blossoms, no collection complete without this desirable ornamental ----- 35c
- SPIREA BUMULDA**—Rosy colored blossoms, desirable. ----- 35c
- SPIREA OPULIFOLIA**—Strong thrifty grower. Flowers white. Seed pods ornamental. ---- 35c
- SYRINGA OR MOCK ORANGE**—Not extra hardy, showy white blossoms. ----- 35c
- TAMARIX AMURENSIS**—A tall growing shrub with feathery foliage that resembles the Juniper. Has small pink flowers and the contrast with the foliage makes a very attractive and ornamental shrub. Quite hardy. ----- 50c

CUT FLOWERS

During the late spring, summer and early fall months, we have an abundance of beautiful perennial and annual blossoms, oceans of Iris, Peonies and Gladioli, and can furnish cut flowers, bouquets, sprays and designs for parties, weddings, funerals, etc., upon short notice. We give special values that will please you. Phone or write us. We guarantee you quick service and satisfaction.

Lilacs

No place is quite complete without the Lilacs. The hardiest of all the shrubs, absolutely dependable and there is no scent as welcome and refreshing. All the world loves the Lilac. The newer varieties blossom at an early stage and are really beautiful. No shrub will stand the abuse and last as long as the lilacs.

	Each
COMMON PURPLE—	25c
COMMON WHITE—	35c
PERSIAN—Not as strong a grower but very graceful and showy, early blossomer.	35c

The new Lilacs start blossoming very early in life. Perfectly hardy and sweet scented.

The New Lilacs

ALPHONSE LA VALLE—Blue blossom	50c
PRES GRAVY—Another of the blues	50c
MADAM LEMOINE—A large beautiful white..	50c
JOSIKEA—A sturdy purple	50c
VILLOSIA—Light purple	50c
DR. BRETSCHNEIDER—A strong growing white	50c
SEN VOLLAND—A rosy colored blossom	50c
MADAME CASIMER PERIER—Creamy white	50c
LUDWIG SPAETH—A very desirable purplish red.....	50c
CHINESE TREE LILAC—Grows to quite a tree, white blossoms. A little tardy to start blossoming	50c

STUNG

Bargain collections and cheap prices generally mean little tender slips or dried up plants. Did you ever fail to get stung when you bite for a bargain collection? Buy from us and if you do not think you are getting your money's worth, send any thing back and we will substitute or send you back your money. What's fairer?

We don't care what you buy from us. If not satisfactory ship it back and we will refund your money.

Rugosa Roses

HARDY ROSES

HARRISON'S YELLOW —The standard early blossoming yellow	50c
TAYLOR'S DOUBLE WHITE —A very desirable double white	75c
HANSA RUGOSA —A semi-double dark red, extra fine, vivid red seed pods add to the ornamental value	75c
BLANC DE COUBERT RUGOSA —A semi-double pure white, like Hansa, blossoms all summer	75c

Lillies

FULVA DAY LILY —Tall growing, hardy, orange colored flower	25c
LILY OF THE VALLEY —Dainty and very sweet scented	15c
SINGLE TIGER LILY —	15c
DOUBLE TIGER LILY	20c

Flowers for Fall Planting

Tulips and Peonies and Iris are three of the flowers that can be set out in the fall. At that time we get in our shipment of Dutch bulbs and will be pleased to send you a list of the Tulips, Peonies and Iris.

Don't let any nurseryman try to convince you to make any planting in the fall, with the above exception, as it is money and time thrown away and has done a lot to discourage people to beautify their homes. Buy direct from dependable nurserymen and save disappointment and money.

Perennial Flowers

No home is quite complete without a good collection of the hardy perennials. Here nature tries to outdo herself in arranging all the delicate colors of the rainbow, exhaling the sweetest of the perfumes and a home without the perennials is like a home without a mother. A little protection in winter helps and a little care to see that weeds and grass does not choke them will repay one a thousand fold.

Each

- ACHILLEA**—A delightful white, profuse bloomer, fine for bouquets. ----- 25c
BLEEDING HEART—With heart shaped red flowers, a favorite. ----- 50c

- BOUNCING BETTY**—A very profuse bloomer. Prof. Hansen states that this flower should be in every collection. ----- 35c
COLUMBINE—Easy of culture and always a welcome flower, colors mixed ----- 25c
GIANT DAISY—A strong, late summer bloomer, extra fine. A good background flower ----- 25c
GYPSOPHILLIA OR BABY'S BREATH—Delicate white flowers, fine for bouquets ----- 25c
LAVATERIA—Siberian strain, healthy bearer of pink flowers, a fine plant for background. ----- 35c
LARKSPUR BELLADONNA—Free and nearly continuous bloomer of light blue flowers -- 25c
LARKSPUR FORMOSUM—The old dark blue favorite ----- 25c
LYCHNIS—Easy of culture and hardy, colors red and white, good for background ----- 25c
PLATYCODON OR JAPANESE BELL FLOWER—(Stake plants at flowering time) extra fine mixed ----- 35c
PINKS—Sweet scented and like miniature carnations, comes in mixed colors ----- 25c
PHILOX—One of the best and showiest of the perennials, blossoms during the hottest part of the summer and early fall when flowers are scarce. Fragrant, fine for bouquets. Colors red, white and pink ----- 20c
RUDBECKIA OR GOLDEN GLOW—Popular, showy yellow flowers, for background planting ----- 25c
RIBBON GRASS—Very ornamental and showy ----- 25c
SHASTA DAISY—The best of the summer daisies ----- 25c
YUCCA—A native evergreen, ornamental ---- 50c

IRIS

Truly called the orchids of the garden. All the variety of tints imaginable. There are three divisions of the Iris family, Pumula or early, Liberty or large flowering and Siberian, the last to flower. Very easy of culture and will stand dry weather better than nearly

any other flower.

PUMULA PURPLE —The old Flag of Grand-	
ma's day -----	10c
PUMULA BLUE —Very delicate, sky blue ----	15c
PUMULA GOLDEN —Very choice, extremely	
dainty -----	20c

Large Flowering Iris

AUREA —One of the best of yellows -----	20c
BLUEBEARD —The best of the even shades of	
blue -----	25c
CANIDA —Pale lavender -----	15c
DELICATA —Lilac and lavender -----	20c
FLORENTINA ALBA —White -----	25c
HER MAJESTY —Soft rose, very beautiful ----	25c
KHEDIVE —Pretty lavender -----	20c
LA TENDRESSE —Lavender and lilac -----	15c
MADAM CHEREAU —White, frilled with vio-	
let, beautiful -----	25c
PALIDA DALMATICA —Queen among iris,	
delightful lavender, large -----	25c
PRINCESS VICTORIA LOUISE —Extremely	
fine, large and very beautiful -----	35c
QUEEN OF MAY —Soft lilac rose, rare -----	35c
SAN SOUCI —Golden and mahogany red, very	
attractive -----	15c

Siberian Iris

DISTINCTION —Beautiful blue sprinkled with	
white -----	20c
LADY GODIVA —White, flushed rose, very at-	
tractive -----	25c
ORIENTALS —A beautiful deep blue -----	15c
SNOW QUEEN —White, golden throat, late,	
very fine -----	20c
SUPERBA —Large violet blue -----	20c
IRIS COLLECTION —Ten Iris of a mixed lot	
of six or more varieties for \$1.00	

CERTIFICATE OF NURSERY INSPECTION

Office of State Entomologist

Brookings, S. D., Sept. 24, 1923

THIS IS TO CERTIFY that the nursery stock growing in the Northern Seed and Nursery Co., of J. B. Taylor, proprietor of Ipswich, South Dakota, has been inspected by Purley L. Keene, a duly appointed inspector of this office in accordance with the provisions of Chapter 260, Session Laws of 1917, State of South Dakota, and permission is hereby granted said nursery to sell and ship nursery stock which has been officially inspected and found apparently free from injurious insects, Arachnids, worms, and dangerous plant diseases. This certificate is valid until July 1st, 1924 unless revoked.

Resident Nursery Certificate No. 161.

H. C. SEVERIN, State Entomologist.

PEONIES

Here nature tries to outdo herself. The Peony is becoming the most popular of the perennial flowers. Coupled with a hardy constitution, it is doubly enjoyed. The many exquisite colors of the different shades of Reds, Pinks and Whites makes one gasp with admiration and is a reflection of all that is fine in nature's habitation. Modeled by tender hands and by those that had etherial ideals, the Peony has come down to us as one of the flowers attaining perfection.

Be liberal in planting them as it is really the cheapest flower we can grow even if one pays \$2.50, \$5.00 or \$10.00 for a single root as when once planted in a favorable location it will stay with one for life and improves with age.

See that it has a good chance by being planted in subdued soil and away from trees or anything that will take the moisture and substance necessary for its growth and remember the flowers are monstrous affairs in proportion to the plant and must be fed well during the year to bring forth the grandest blossoms any plant is blessed with. You can buy our peony roots in the spring or fall—one of the very few things that can be safely set out in the fall.

The plants we send out are substantial divisions and not the little pared down stubs some send out.

Some of Our Fine Peonies

Reds

	Each
ANDRE LAURES—A fragrant magenta red	...50
DELACHEI—Rich, purplish red. A great favorite50
EMIL LEMMOINE—Symetrical purplish red	... 1.00
FELIX CROUSE—Rich brilliant ruby red. Very attractive and one of the best of the reds75'
LOUIS VAN HOUTTEI—Velvety cerise red50
LA SUBLIME—Rich deep crimson, free bloomer50
KARL ROSENFELD—Unsurpassed early brilliant red. Blossoms large and compact3.50

Whites

ACHILLE—Shell pink, vigorous grower	-----	.40
ASA GRAY—Large, lilac shades, midseason, fine	-----	.75
BOULE DE NEIGE—Milk white, guards fleck- ed, unpleasant odor	-----	.50
COURONNE D'OR—Called the famous crown of gold. Late, fragrant and one of the best	1.00	
DUCHESS D'NEMOURS—Large sulphur white, free bloomer	-----	.50
DUKE OF WELLINGTON—Center sulphur white. One of the best for cut flower pur- poses	-----	.50
FESTIVA MAXIMA—The most popular of the whites. Early, very large, center flecked crimson	-----	.75
LA TULIP—White flecked with carmen. Good keeper	-----	.75
MME. D'VERNVILLE—Exquisite sulphur white, productive, early	-----	.50
MARIE LEMOINE—A wonderful white with yellow shading touched with pink. Strong grower, late	-----	.75
QUEEN VICTORIA—A favorite cut flower va- riety	-----	.50

Pinks

BARONESS SCHROEDER—Extra large, tall free blooming	-----	1.50
DELICATISSIMA—Large rose type free bloomer	-----	.50
EDULUS SUPERBA—One of the most popu- lar early pink	-----	.50
EUGENE VERDIER—Hydrangea pink, large, midseason, extra	-----	1.00
FLORAL TREASURE—A superb large pink	..	.50
FRAGRANS—A fragrant violet rose	-----	.40
GRANDIFLORA ROSEA—Even clear pink, early	-----	.50
HUMEA—A cinnamon scented, late pink	-----	.50
JEANE D'ARC—Soft pink, sulphur white and rose	-----	.50
L'ESPERENCE—A favorite deep pink	-----	.50
LIVINGSTON—Soft pink, lilac rose, full bloom	.75	
MATILDE MECHIN—Lilac rose	-----	.50
MONS JULES ELIE—Early, lilac rose, extra large and very popular. A grand flower	----	2.00
MARGUERITE GERARD—Showy pink, creamy center	-----	.75
MADAM CALOT—Pinkish white, strong grow- er	-----	.50
NEPTUNE—Purplish rose with white stripes50
OCTAVIE DEMAY—Large productive pale pink, extra fine	-----	1.50
REINE HORTENSE—Desirable pink, crimson splashed	-----	.75
RICHARDSON'S GRANDIFLORA—Immense light pink, late, a strong and vigorous grower	1.00	
SARAH BERNHARDT—Mauve rose, silver tipped, late, one of the newer varieties	-----	3.50
SOLFATERE—A new desirable pink	-----	.50
THERESE—A large soft pink shading to lilac, strong grower, midseason, a wonderful va- riety	-----	10.00
PEONY COLLECTION—With every order for nursery stock we will give a collection of three peonies, our selection, one red, one white and one pink for	-----	1.00

The Best in Dahlias

DAHLIAS

One of the most satisfactory flowers we know. Blossoms in late summer and fall when other flowers are scarce. We propagate the best in the cactus, decorative and show varieties.

The Dahlia is very easy to grow. The roots we send out are divided and ready to plant. Place them about four inches deep in the ground. Cultivate to keep weeds down and the ground moist. When frost kills the tops, cut them off near the surface, dig the tubers and store them in a cool cellar, where frost will not reach them. Used extensively for bouquets and cut flower purposes. Good background flower. Note the very low prices.

Cactus Dahlias

FLORADORA—Profuse bloomer of beautiful wine crimson flowers, extra fine.

GEN. BULLER—Rich, deep crimson, tipped with white. Very attractive.

HARBOR LIGHT—Vivid orange red.

J. H. JACKSON—One of the best of the dahlia family, dark red, nearly black.

PEARL DE LYON—Snow white, very fine.

KRIEMHILDA—A fine shade of pink with a white center.

Price for Above Varieties 15c each; two for 25c.

Decorative Dahlias

CATHERINE DEUER—An extra large flower.

Color, glowing shade of red. Extra fine. Each 20c

MRS CHAS. TURNER—Clear canary yellow, very large and attractive. Extra, each ----- 20c

- OBAN**—Mauve, large and very free flowering.
Each ----- 20c
- SOUV. DE GUSTAV DOUZON**—Very large, beautiful orange scarlet. Profuse bloomer.
Each ----- 20c
Above 20c varieties, two for 35c.
- QUEEN OF YELLOW**—Very fine yellow. Very free bloomer. Each 15c; two for 25c.
- ZULU**—Black velvety red. Each 10c; per three, 25c.

Show and Fancy Dahlias

- A. D. LAVONI**—A delicate pink. Very desirable. Each ----- 20c
- BON TON**—Deep rich red. A great favorite.
Each ----- 15c
- CRIMSON GLOBE**—Flowers round, crimson with long stems. Desirable. Each ----- 15c
- FRANK SMITH**—A dark maroon, tipped with pinkish white. Each ----- 15c
- JACK ROSE**—Named after the red rose. Each 15c
- QUEEN VICTORIA**—One of the finest of the yellows. Long stems. Profuse bloomer.
Each ----- 15c
- ROSE PINK CENTURY**—The largest of the single flowered. Deep pink, on long stems. Sure bloomer. Each ----- 15c
Above varieties 15c each, two for 25c.
- DAHLIA COLLECTION**—12 mixed Dahlias \$1.00.

GLADIOLI

There is no flower we grow from a bulb that gives the genuine satisfaction as Gladioli. Easy to raise and blossoms at a time when flowers are scarce. Extra fine for vase bouquets. Plant 4 inches deep. Must be dug up and stored during winter and planted about 1st of June. Our bulbs are extra fine this year.

- AMERICA**—The standard popular pink. Flowers large and fine for cut flowers.
- BLUE HYBRIDS**—Very best of the blue shades, very popular.
- MEADOWDALE**—Fine white with blotched throat, very attractive.
- MRS. FRANCIS KING**—The standard red. Strong grower. Extra fine.
- NIAGARA**—Beautiful creamy yellow, very showy. Price for Gladioli—Each 8c; Per 10, 60c. Mixed Gladioli per 10, 50c.

CUT FLOWERS

We ship thousands of peony blossoms during the month of June and they are becoming particularly popular to June brides for bouquets and decorations and in fact for any doings. Boxes of these lovely creations run from \$1.00 and up and if you are not satisfied with any shipment we make, just write us and we will leave it with you to determine what they are worth. Remember the shut-ins and their thanks of delight will repay you.

Asparagus

The earliest and the healthiest of all vegetables. Plant about 4 inches deep in rich soil. Will last a lifetime.

PALMETTO—The old reliable variety.

Price, large thrifty plants, 50 for \$1.00; 100 for \$1.50.

WASHINGTON—A new variety originated by the U. S. Department of Agriculture. Extra large and fine and the coming asparagus. Price yearling plants 50 for \$1.50; 100 for \$2.50

Rhubarb or Pie Plant

The best early fruit, and one of the best tonics. Fine for pies, sauces and canning. Plant loves a rich, moist location, and is a gross feeder. Needs dividing every third year. The plants we offer are large and matured.

MAMMOTH—The largest, juicy and very tender.

PINEAPPLE—A distinctive variety, as its name implies.

Price each 15c; per 10, \$1.25

Catnip

Price each 15c; per 10, \$1.00.

Bedding Plants

ASTERS—Fine for late summer and early fall blossoms. Mixed, per dozen 35c

PANSY—Thrive best in a protected partial shady place. Mixed per dozen 75c

GERANIUMS—Mrs. Nutt, finest of the reds
Each 25c; Per 10 \$2.00

PETUNIAS—No flower any showier blossoms so cheerfully all summer. Per doz. 50c

CANNA KING HUMBERT—Orange scarlet flowers, immense bronz leaves. Each 15c.
Per dozen 1.50

Vegetable Plants

CABBAGE—COPENHAGEN MARKET—Extra fine for early and mid-season.

DANISH BALL HEAD—Late and best winter keeper.

Price all cabbage per dozen, 25c; Per 100, \$1.25.

TOMATO—JOHN BAER—An improvement of Eariana, early and the best all around tomato grown, very prolific.

Per doz. 35c; Per 100, \$2.25.

CELERY—WHITE PLUME—Per doz., 25c;

Per 100, \$1.25

PEPPER—Sweet Early Red. Per doz., 50c;

Per 50 \$1.50

Here are just a few complimentary things said about us.

"The asparagus plants were wonderful and are growing big and strong."

"The 200 Cottonwood trees you sent are an exceptionally fine bunch and I am very well satisfied with the same."

"The Plants are all growing and blossoming fine and we will want more another year."

FARM SEEDS

We wish we could give more space to seed corn, as it is a vital proposition to the growers of the northwest. By that we mean good seed corn, well bred up and seed that has been properly handled.

Our seed plant we aim to make the best in the northwest. Three stories and basement will give us the room to do this. On the top floor we dry and cure our seed corn. This is an ideal place as it is airy and warm in the fall when it is absolutely necessary to dry the seed before freezing weather comes.

Good seed corn is cheap at any price. Even if the seed is a gift, a few missing hills every row makes it expensive seed. We have the finest seed we ever raised and all grown here.

We wish to caution growers not to depend on their main crop on the late maturing corn. This season may not be as long or favorable. Some weather prophets are now saying that it will be a shorter season and to plant the early and surer varieties and to get it in as early as possible. See Country Gentlemen Jan. 5th issue. We are not prophets or sons of prophets but the advice is good anyway.

Corn grown in the north where the early maturing ears are selected for seed is the seed to tie to.

FULTON'S YELLOW DENT—This corn was selected for years for earliness by Thos. Shew, a real corn grower, and it was this strain that has taken most of the prizes at the corn shows for the past three years. Has a deep kernel and is a heavy yielder.

Price per bu. \$2.50; 5 or more bu. \$2.25 per bu.

MINNESOTA No. 13—Originated by the Minnesota Agricultural College. An extra good corn for silage and a heavy yielding yellow dent. Selected for earliness, this strain will mature much earlier than the average Minn. No. 13.

Price per bu. \$2.50; 5 or more bu. \$2.25 per bu.

SOUTH DAKOTA NO. 86—This is a selection of the Minn. No. 13 by the S. D. Experiment Station. We have grown this variety for the past four years and believe it is one of the best yellow dents. Matures early and is like its parent in every way, except that the ears are a trifle smaller.

Price per bu. \$2.50; 5 or more bu. \$2.25 per bu.

WIS. COLD RESISTANT—A selection of the Golden Glow made by the Wis. Experiment station. This corn has been bred for hardiness as to early planting, withstands cold and wet ground conditions and can be planted much earlier than the average corn.

Price per bu. \$2.50; 5 or more bu. \$2.25 per bu.

NORTHERN YELLOW DENT—A very early maturing corn. Not as pure as the above varieties but for late season or for replanting cannot be beaten. It has never failed to mature a crop here.

Price per bu. \$2.25; 5 or more bu. \$2.00 per bu.

NORTHERN WHITE DENT—A variety that has been grown here for years and never fails. Good for hogging off purpose. Not pure white dent but a corn that has been selected for years for earliness. If cutworms take your first planting, replant with this variety or the Nor. Yellow Dent.

Price per bu. \$2.00; 5 or more bu. \$1.85 per bu.

NORTHWESTERN DENT—An extra early red dent, planted very extensively. Matures early and is a very satisfactory and popular corn.

Price per bu. \$2.25; 5 or more bu. \$2.00 per bu.

FALCONER CORN—Probably the most popular corn grown in No. Dak. This is a yellow flinty dent. Matures early and is a big yielder. We do not grow this variety but have made arrangement with a nearby No. Dak. grower to ship this direct.

Price per bu. \$2.50; 5 or more bu. \$2.25 per bu.

RAINBOW FLINT—The most popular flint corn grown. Grows an extra large ear high on the stock. One of the best of the fodder corns. This strain has been grown here for many years and has matured here very year.

Price per bu. \$2.75; 5 or more bu. \$2.50 per bu.

WHITE FLINT—An early maturing large yielding white flint. Fine for hogging off.

Price per bu. \$2.50; 5 or more bu. \$2.25 per bu.

MIXED FLINT—This is a heavy yielder of large long ears. Color white and yellow. Good for fodder and like all the flints good for hogging off.

Price per bu. \$2.25 per bu.; 5 or more bu. \$2.00 per bu.

SQUAW FLINT—This is the old reliable mixed flint that has been the standby for hogging off. Ears grow close to the ground.

Price per bu. \$2.25; 5 or more bu. \$2.00 per bu.

Sweet Corn

GOLDEN BANTAM SWEET CORN—Nothing quite equals Golden Bantam for table use. Can be planted early, matures early and one of the sweetest of the sweet corns. Our own planting.

Price per pound, 25c; 10 pounds, \$1.50; 50 pounds \$6.00.

Pop Corn

WHITE RICE—Raised locally. The standard popular corn, easy to raise and a good yielder.

Price per pound, 15c; 10 pounds, \$1.00; 50 pounds \$3.00.

JAPANESE HULLESS—The finest of the pop corns. The kernels when popped are large and clear white. Very popular.

Price, 25c per pound; 10 pounds, \$1.50.

Popping Corn. Write for low price.

Prices Quoted Subject to Market Changes

With an up to the minute cleaning plant we can clean up our seeds so you do not buy light fluffy seeds, foreign matter and weed seeds. Cheap seeds means expensive seeds generally.

Wheat

We prefer to submit samples of our spring wheat to show just what you are ordering as outside of Kanrad Winter Wheat the berries are not quite as plump as usual. However, all seed is well cleaned and high in germination, and will seed a little more to the acre than the extra large kernels will.

MARQUIS WHEAT—The best of the milling wheats but subject to rust. Should be sown as early as possible.

Price per bu. \$2.00; 5 or more bus. \$1.50 per bu.

PEARSON 999 AMBER DURUM—An improvement of the Kubanka and the best of the durum. An enormous yielder and a good rust resister. The seed we are offering we grew ourselves and it outyielded all other spring varieties.

Price per bu. \$1.75; 5 or more bus. \$1.25 per bu.

RUBY SPRING WHEAT—A hard spring milling wheat introduced by the Canadian Experiment Station. It is 10 days earlier than Marquis. It is more rust resistant and being earlier is not affected like the other hard spring wheat. This yielded nearly twice what Marquis did in 1923.

Price per bu. \$3.00; 5 or more bu. \$2.50 per bu.

KANRED WINTER WHEAT—The hardiest of the winter wheats. For the past 3 years it outyielded all the other varieties that we had. We believe it will prove the best wheat to sow as it matures early and gets away from the hot weather and rust that affects the spring wheat so often. Write us for prices and information for fall needs.

Oats

HULLESS OATS—A new variety that is becoming quite popular. Threshes out like wheat or rye and when ground makes one of the best concentrated food for young pigs and calves. On account of being hulled it will not yield as many bushels as other oats will but one must take into consideration that one bu. of hulless oats will weigh what two bu. of the common oats will.

Price per bu. \$4.50; 5 or more bu. \$4.00 per bu.

SIXTY DAY OR KERSON OAT—Recommended by the experiment station for the main crop. Matures and ripens usually before the wild oats do. A good yielder and the surest variety to grow if the season happens to be a little dry.

Price per bu. 75c; 10 or more bus. 60c.

VICTORY OATS—A selection and improvement of the Swedish Select Oat. Medium early, a large plump kernel and a heavy yielder. We highly recommend this variety.

Price per bu. \$1.00; 10 or more bus., 75c. per bu. 20 or more bu. 65c per bu.

Flax

FLAX—Grown in Edmunds county.

Price per bu., \$4.00; 5 or more bus., \$3.50 per bu.

Potatoes

EARLY OHIOS—The standard early potato.

IRISH COBLER—White, big yielder, very popular.

Price per bu., hand sorted, \$1.50; 5 bus., \$1.25 per bu.

Speltz

SPELTZ OR EMMER—One of the best drought resisting feeds grown in the northwest, a good yielder. One of the best all purpose grains grown, being especially good for horses, cattle, sheep, hogs and poultry.

Price, \$2.00 per 100 lbs.

Prices Quoted Subject to Market Changes

Soy Beans

WISCONSIN BLACK—An early maturing bean and a good yielder. This seed was grown in Edmunds county and is acclimated. It will mature and be more satisfactory than the southern seed and worth much more. Plant with the corn, being careful to stir up the corn and beans at the end of every row. This is for hogging purpose and silage. If seed is wanted plant alone.

Price, 10 lbs. \$1.50; 25 bs. \$2.50.

White Blossom Sweet Clover

This is one of the easiest of the clovers to get started. It is a good yielder of seed and out yields any other clover or alfalfa for pasture purpose and we predict that it will soon be more generally grown than alfalfa.

Stock like it better when pastured close. It starts early in the spring and stays green late in the fall. Another advantage stock will not bloat on White Blossom Sweet Clover.

Price for scarified northern grown seed per lb. 25c; 10 lbs. \$1.75; 20 lbs. or more, 16c per lb.

Red Clover

RED CLOVER—Very valuable for forage and for plowing under for fertilizing purposes cannot be equalled.

Price, 1 lb. 40c; 25 lbs., 35c per lb.; 50 lbs., 30c per lb.

White Dutch Clover

Fine to mix with Kentucky Blue Grass for lawn. Makes good pasture and bee food.

Price per lb. 75c; 5 lbs. 70c pr lb. 10 lbs. 65c per lb.

It pays big dividends to inoculate Alfalfa, Clover and Soy Bean seeds with Nitragin. This insures a much better growth (as the nitrogen from the air feeds the plants as well as the soil does).

Price for ½ bu. size can 60c prepaid; 1 bu. size can \$1.00 prepaid; 5 bu. size can \$4.75 prepaid

Alfalfa

DAKOTA GROWN—This is acclimated northern and northwestern South Dakota grown seed from old fields that have stood the severe winters and dry summers and is the variety that is generally more planted than any other. Known as Dakota No. 12.

Price per lb., 40c; 10 lbs., 35c; 20 or more lbs. 30c per lb.

Prices Quoted Subject to Market Changes

GRIMM ALFALFA—Grown in northern South Dakota. The hardiest of all alfalfas. We are pricing this at a low figure this year and anyone figuring on a permanent alfalfa field should take advantage of this price and make a good planting.

Price per lb., 65c; 10 lbs., \$6.00; 25 lbs., 50c per lb., 100 lbs. 40c per lb.

Bromus Grass

BROMUS INERMIS—One of the very best pasture grasses grown, will stand more drouthy conditions than any other grass, an enormous yielder. Starts very early in the spring and will keep green, if pastured, the last in the fall.

Price, 5 lbs., 75c; 10 lbs. or more, 12c per lb.

Kentucky Blue Grass

The best for lawns. We are offering fancy cleaned 1923 seed that weighs 21 lbs. to the bushel. The best that can be purchased anywhere. No mixture of any kind in it. To guarantee a stand one must sow new seed. This cannot be emphasized too strong.

Price per lb. 60c; 10 lbs. 45c per lb.

Timothy

Grown in the northern part of this state, and acclimated. We are making a special price as we would like to see more and better grass lands.

Price, 10 lbs. \$1.25; 20 lbs. or more, 10c per lb.

Rape

RAPE-DWARF ESSEX—One of the best forage plants grown, excellent for hogs and sheep. Can be sown separate or with other grains.

Price per lb. 25c 10 lbs. \$1.75; 25 lbs. \$3.25; 50 lbs. \$6.00

Buckwheat

BUCKWHEAT—Silver hulled, an improvement of the old sort. A great yielder. One of the best crops to grow to smother out weeds. Also fine for bees when in blossom. One of the very best of poultry feeds that is grown.

Price per bu. \$2.50; 5 or more bu. \$2.25 per bu.

Millets

BROOM CORN—The standard millet grown for seed production. Very high feeding value for hogs, cattle and poultry. A good drought resister.

Price 1 lb. 20c; 10 lbs. 75c; 50 lbs. \$2.00; 100 lbs. \$3.50

EARLY FORTUNE—Quite similar to Broom Corn millet except that the seed is red. One of the best of the millet family. Seed excellent for stock and poultry and the fodder after threshing is the best of feed. For hay purposes much better than Broom Corn millet as it does not grow as coarse. Our seed is the best we ever had.

Price per lb. 20c, 10 lbs. 75c, 50 lbs. \$2.00, 100 lbs. \$3.50.

GERMAN MILLET—One of the very best for hay purposes.

Price 10 lbs. 75c, 50 lbs. \$2.25; 100 lbs. \$4.00.

JAPANESE—Sometimes called billion dollar grass. Makes a heavy growth and in moist seasons will cut two or more crops. Is better for horses than the other millets.

Price, 1 lb. 25c; 10 lbs. \$1.25; 50 lbs. \$3.00; 100 lbs. \$5.00.

SIBERIAN—The most popular millet for hay purpose. A good drouth resister. Not only makes splendid hay but is a reliable seeder.

Price, 1 lb. 20c; 50 lbs. \$2.25; 100 lbs. \$4.00.

Prices Quoted Subject to Market Changes

EARLY AMBER SUGAR CANE.

EARLY AMBER CANE

No crop grown makes the feed that cane does and should be more generally grown. A great drought resister. Can be planted late. Drilled with corn planter and cultivated is best.

Price 10 lbs., 75c; 25 lbs., \$1.75; 50 lbs., \$3.00; 100 lbs., \$5.00.

Minnesota Amber Cane for making sorgum or syrup.

Price per lb., 25c; 10 lbs., 100; 25 lbs., \$2.00

Sudan Grass

This is one of the best forage plants grown. We have grown it the last two seasons and it surprised us the growth it makes. Can be grown to advantage on clean or new ground by sowing it broadcast or drilling it in and can be cut several times during the summer. It takes about four pounds to plant an acre if planted in three-foot rows and we would be inclined to recommend planting it this way.

Price per lb. 25c; 5 lbs. 20c per lb.; 10 lbs., 18c per lb.; 20 lbs. or more 15c per lb.

This is not merely a few boards nailed together with a lamp attached and labeled incubator, but really a scientifically built machine which is substantially built and which will last. It is a little higher in price than some of the other makes but first cost only and will prove the cheapest in the long run. It will hatch a larger percentage of chicks.

The Queen Incubator is constructed of California Redwood, properly insulated with a patented ventilating system.

In a U. S. Government bulletin it states "Cheap machines are less reliable, require more attention and wear out much quicker than good incubators. As the value of the machine is small compared with the value of the eggs during the normal life of an incubator, it is poor economy to purchase a machine which is not reliable."

No. 3—180 Egg Capacity ----- 44.50

No. 4—275 Egg Capacity ----- 57.75

Prompt shipments can be made, no delays. 10 per cent discount or freight prepaid.

Prices Quoted Subject to Market Changes

Queen Brooder

The Queen is the only Brooder stove with automatic control of both check and draft which provides constant and correct heat. Nothing better on the market.

No. 2 1200, chicks size ----- \$25.00

Eggs for Hatching

BARRED PLYMOUTH ROCKS—The old standbys. Ours are the large growthy kind. This is the only variety we have. Cockerels for sale after September 1.

Eggs, \$1.50 for setting; \$3.00 for 50.

CHICK FEED

This is our own balanced mixture of mixed grains and cracked corn and is sold for one half the price generally charged for chick feed.

Price \$1.75 for 50 lbs.; \$3.00 for 100 lbs.

CHARCOAL—Mixed with poultry mash will keep the chicken's digestive organs in good condition. Price 10 lbs. for \$1.00; 50 lbs. for \$3.50

SUNFLOWER SEED—Mammoth Russian, extra large headed. A fine feed and conditioner for poultry. Nothing equals it for fitting poultry for show purposes. Also fine for silage.

Price per lb. 20c; 10 lbs. \$1.50

Sal-Vet

Without exception this is one of the very best mineral conditioners and tonics made. Nothing will equal it for getting rid of worms. Good for all kinds of stock but something absolutely necessary to feed hogs to destroy worms and keep them in the pink of condition so they will not become susceptible to cholera and swine plague. A healthy hog is like a healthy person and rarely is affected by contagious diseases. Nothing any more reliable.

Price 15 lb. package \$1.50

40 lb. package \$3.25

50 lb. pail \$4.00

100 lb. keg \$6.75

200 lb. keg \$12.00

Sal-Vet Poultry Tonic excellent to tone up the chickens and make them lay. Price 25c per package.

THE BARKER WEEDER, MULCHER AND CULTIVATOR

BARKER WEEDER, MULCHER AND CULTIVATOR

We can recommend this as the best garden cultivator made. Gets close to the row without disturbing the young plants. We have used them for years. One boy can do as much with one of them as six men can with hoes.

Price \$9.25 for 6D; \$10.60 for 8½D, and worth the money.

Acme Sprayers are made of galvanized steel, tested to 60 pound pressure. Pump has a seamless brass cylinder. Nozzle solid brass with bronz spring which will not corrode. One of the very best 4 gallon sprayers made. Sold on a guarantee.

Price each \$6.50 prepaid.

At last we have found an ideal hand sprayer and atomizer. It is made of galvanized iron, which insures long life. Has a coppered plunger rod, leather plunger with metal expander and brass check valve.

Sprays Continuously and is a great saver of spraying material. Extra fine for all garden crops as it not only has force but the spray is so fine it sticks where it strikes. Just cannot be beaten to use for fly rellants and if you do not think it is the best all round sprayer you ever used send it back and your money will be refunded.

Price each \$1.25 prepaid.

Prices Quoted Subject to Market Changes

Seeds that will not stand inspection are not good buys. If you are not satisfied with the shipment you receive from us, return it and get your money back. Quite different from what you find in the average highly dressed up catalogue.

SAVO WINDOW BOX

Self Watering

For windows, porches and sun parlors. Made of metal and are leak proof and rust proof. No surface watering.

FLOWER AND PLANT BOX

We have sold a lot of these and they have given the best of satisfaction. Dark green enamel finish. The most efficient durable and artistic plant box made.

CLEAN

your grain for

MARKET

The CARTER DISC SEPARATOR makes thorough grain cleaning on the farm possible and profitable. In one run through, the CARTER cleans your market grain DOCKAGE FREE—both oats and small seeds—without loss of wheat in the screenings. And it insures CLEAN grain for seed.

No sieves or screens to clog—no fans to get out of order. All steel construction, lasts a lifetime.

We have this machine here to show you. Come into our place of business and we will demonstrate it to you.

Price \$125.00 delivered and worth it.

The Rhodes double cut pruner cannot be beaten. We use them.

Cuts both sides and does not bruise or pull the bark.

Price, 20-26-30 or 36 inch, each \$5.00.

TERMS

Cash in advance. Personal checks accepted. All orders f. o. b. Ipswich, S. D. We ship most nursery and small seed orders by express. Bulk seeds generally are cheaper sent by freight.

When small orders are requested to be shipped by parcel post, please send the necessary postage or we will send parcel post collect. We can send orders weighing up to 70 pounds in the first, second and third class zones, and up to 50 pounds outside of the third zone. On account of nursery wrappings being so heavy it is hard to estimate the postage. Also if you live on a prepaid station where there is no agent, include the transportation charges. If you ever receive anything from us in bad order, have it marked "bad order" on the freight or express slip as adjustment can be made much easier.

Unless instructed to the contrary on nursery orders, we will substitute other sizes or as good varieties, if we are sold out on any items.

We give personal attention to all orders, and are very careful to label all stock true to name. In case any error occurs on our part, we are willing to replace the variety free, but if replacement is not made we shall not be liable for more than the purchase piece.

The prices quoted on seeds are subject to market changes, and as it is customary and according to the usages of the seed business, we give no warranty, express or implied, as to the description, quality or productiveness. If the purchaser does not accept the goods on these terms, they must be returned at once and the money paid will be refunded. All seeds are sold bags weighed in.

Our nursery adjoins the city of Ipswich on the east (Home of the Yellowstone Trail) and visitors are always welcome.

Warehouse and office on the C. M. & St. P. Ry. Come and see us when in the neighborhood of Ipswich.

The above was taken from a photo of our baby, John Jr. A pretty good kid who like his Pa thinks there is nothing as fine as flowers. Really when you come to think about it what a drab old world this would be without flowers and why is it not more are raised.

We generally all through the growing season have a lot of fine blossoms of perennial flowers like Iris, Peonies, Phlox, Daisies and many others besides Gladioli, Dahlias and many of the annuals and if you ever have occasion to need a shipment for any purpose phone or write us and state what amount you want to spend. We guarantee to please you or refund your money. You don't find any one else that does business like this.
